

**AMENDMENTS TO THE CLAIMS**

6. (Currently amended) An antibody or antigen binding fragment thereof which specifically binds a protein or peptide of at least 8 amino acids of SEQ ID NO:2 or 4.
23. (Original) A sterile or buffered composition comprising the antibody of Claim 6.
24. (Original) The antibody of Claim 6 which is detectably labeled.
25. (Original) The antibody of Claim 6 which is attached to a solid substrate.
26. (Original) The antibody of Claim 6 which is a:  
a) polyclonal antibody; or  
b) monoclonal antibody.
27. (Original) The antibody of Claim 6, wherein the antigen binding fragment is a:  
a) Fab fragment;  
b) Fab' fragment; or  
c) F(ab)<sub>2</sub> fragment;  
d) Fv fragment.
28. (Original) The antibody of Claim 6 which is a humanized antibody.
29. (Currently Amended) A kit comprising  
a) a detectably labeled antibody or antigen binding fragment thereof which specifically binds a protein or peptide of at least 8 amino acids of SEQ ID NO:2 or 4;  
b) a protein or peptide of at least 8 amino acids of SEQ ID NO:2 or 4 immobilized to a solid support; and  
c) instructions for use.
